

### Upgrade Your TPF Operations Server With Luminex's 64 bit, PCI-X 3215 Console Interface

#### Overview

For Transaction Processing Facility TPF V 4.1 and zTPF V 1.1, Luminex now offers its new 64 bit, PCI-X 3215 TPF Console Interface card as an alternative to IBM's 9663 card. The 3215 Console Interface card fits all current server configurations and offers the reliability and performance TPF users demand. Luminex's 3215 card is based upon Luminex's established PCI channel interface designs, with over ten years of successful, reliable, high performance mainframe interface products.

Luminex worked in conjunction with IBM to test the 3215 TPF Console Interface Card with TPF systems to ensure you receive the high level of reliability, scalability and performance you require for your mission-critical information systems.

#### Luminex and IBM TPF Tested

Luminex's 3215 TPF Console Interface has been tested by Luminex and IBM for use with IBM's TPF Operations Server Version 1, Release 2 software. The Luminex 3215 TPF Console Interface works with all new server configurations.

#### Sales Contact

For all information about the 3215 TPF Console Interface, including how to purchase the product, please contact Luminex's Worldwide Sales Manager, TPF Solutions, Jim Diefenbach at 1-888-586-4639, ext. 160 or by e-mail at [jdiefenbach@luminex.com](mailto:jdiefenbach@luminex.com).

#### About Luminex

Luminex develops distinctive data storage products that tackle the complex challenges of storing, archiving, distributing and protecting data. Complemented by quality customer service, Luminex's innovative products create real value for our customers. Luminex's Virtual|BLUE™ line of mainframe channel attach products link IBM and plug-compatible mainframes with the open systems world of servers, disk storage, tape libraries and peripheral solutions, resulting in improved operations and economics for mainframe data storage and management. Luminex's Data|WARE™ product family simplifies CD and DVD creation for small to large businesses in finance, healthcare, prepress, government and education.

#### Features & Benefits

- Half-size PCI form factor
- Full 64-bit PCI compliant
- Works in 66Mhz, 100 Mhz and 132 Mhz PCI-X slots
- Supports ESCON transfer rates of 17 Megabytes/second
- Up to 4 Megabytes of RAM
- One year product maintenance and support warranty
- Quality post-warranty support programs

#### Technical Specifications

- Physical: 6.875" x 4.20"
- Operating Temperature: 5-45° (ambient)
- Operating Humidity: 10-90% (non-condensing)
- Power Consumption: Less than 25 watts
