- MASTERS DVDs AND CDs BASED ON ISO-9660 STANDARD WITH SUPPORT FOR TRUE HFS, ROCKRIDGE AND JOLIET EXTENSIONS

DVD and CD Recording Solutions

Luminex's Data|WARE Workstation Combo puts enterprise-class DVD and CD recording capabilities right on your desktop.

Store, archive and recover business records. Record parts lists, catalogs, sales presentations and more to share with suppliers, customers, partners and co-workers – inexpensively and efficiently. And all with the same reliability and quality that major banks, brokerages and government agencies have come to expect from Luminex's Data|WARE products.

Easy-to-use

Data|WARE Workstation Combo includes a multi-recorder system for DVD-R, DVD-RAM and CD-R with software for Sun® Solaris™, IBM® AIX®, Linux™, Hewlett Packard® HP-UX and SGI® IRIX operating systems. The easy-to-use graphical interface guides the user through the recording process and enables anyone to record catalogs, sales presentations and product documents. The data can then be stored permanently for business contingencies or as part of regulatory compliance.

Data|WARE Workstation Combo is designed for easy installation on your UNIX workstation – exactly where you need it! No expensive subsystem. No confusing connections, networks or cables. Connect the recorder. Load the software. Go.

In addition, Data|WARE Workstation Combo complies with strict industry standards, mastering CDs and DVDs based on the ISO-9660 standard with support for true HFS, Rockridge and Joliet extensions. Luminex takes these standards a step further with automated, behind-the-scenes integrity checks to ensure reliable production control.

Partnership

Luminex views our customers as partners. As your partner, we are committed to providing you with the best customer support in the industry. Luminex's comprehensive hardware and software support plans scale to meet your business and technical needs, ranging from telephone and email support to rapid exchange. We even provide you with a 30-day "Up and Running Guarantee" – exactly what you need when you need it.

Government Regulations

Optical media storage meets new federal government regulations regarding the retention and protection of sensitive data. Using the Write Once, Read Many (WORM) attributes of DVD-R and CD-R media, Data|WARE Workstation Combo records and stores data permanently. It cannot be deleted, manipulated or changed.

This makes Data|WARE Workstation Combo the ideal solution for financial advisers, investors and brokerages facing compliance with SEC Rule 17a-4 mandating the retention of all customer records, correspondence and financial transactions for up to six years. For organizations in the healthcare industry, Data|WARE Workstation Combo meets the Health Insurance Portability and Accountability Act (HIPAA) requiring protection of all patient information when conveyed or transmitted.

SUPPORTED OPERATING SYSTEMS we are

- SUN SOLARIS 5.6, 5.7, 5.8
- SGI IRIX 6.2-6.5
- REDHAT LINUX 6.2, 7.0, 7.2, 8.0
- IBM AIX 4.3

The Bottom Line

When you put Data|WARE Workstation Combo on your desktop, you join hundreds of satisfied Data|WARE users worldwide. Trust Luminex to deliver optical-based data storage and distribution solutions combined with quality service and support.

About Luminex

Luminex develops distinctive data storage products based on proven technologies that tackle the complex challenges of storing, archiving, distributing and protecting data. Complemented by quality customer service, Luminex's innovative products create real value for our customers.

Our Data|WARE™ family of products simplifies CD and DVD creation for small to large businesses in finance, healthcare, prepress, government and education. Luminex's Virtual|BLUE™ line of Bus & Tag and ESCON channel interfaces, virtual tape and direct-to-tape systems link IBM and plug-compatible mainframes with open system servers and devices.

Founded in 1994, Luminex is privately held and headquartered in Riverside, California, with additional offices in San Diego, California, and Beaverton, Oregon. Data|WARE and Virtual|BLUE products are available directly from Luminex and through selected partners worldwide.
